**HB358: Increasing the amount for medical savings accounts.**

Introduced by: G. Maclaren

With the rising costs of medical, dental, and vision care, the current limit of \$3,000 can disappear rapidly.

People are trying to save money by choosing high deductible plans, and \$3,000 doesn't cover the deductible in many cases.

People should be encouraged to save toward their medical care so I support raising the limit to \$6,000 and urge a due pass.

Thank you,
